Accountability

4. Accountability

4.1 Accountability methods

By checking this box, I affirm that all of the necessary policies and procedures are in place to provide reasonable assurance that compliance with OAR 732, Divisions 40 and 42 is met, and to achieve the goals and outcomes specified in this STIF Plan, including, but not limited to: program and financial management, operations management, procurement, use and maintenance of equipment, records retention, compliance with state and federal laws, civil rights, and compliance with ADA.

Yes

By checking this box, I affirm that all of the necessary policies and procedures are in place to provide reasonable assurance that compliance of all Sub-Recipients with OAR 732, Divisions 40 and 42 is met to achieve the goals and outcomes specified in this STIF Plan, address deficiencies in Sub-Recipient performance, and to provide reasonable assurance that the Qualified Entity can accomplish the applicable requirements of these rules, including but not limited to: audit and compliance requirements, accounting requirements, capital asset requirements, and reporting requirements.

Yes

4.2 Sub-Allocation method

By checking this box, I affirm that all data used to develop the sub-allocation method was shared with each Public Transportation Service Provider and other potential sub-recipients, as relevant.

Yes

Describe the Qualified Entity's method for sub-allocating STIF Formula Fund moneys and the collaborative process used to work with Public Transportation Service Providers and other potential Sub-Recipients, as relevant, to develop the sub-allocation method.

Coos County Area Transportation is the only Public Transportation Service Provider within the area of responsibility and no other potential Public Transportation Service Provider expressed interest in providing service; therefore, sub-allocation is not possible.

4.3 High Percentage of Low-Income Households

Explain how the STIF Plan defines and identifies communities with a high percentage of Low-Income Households.

The STIF Plan defines communities with a high percentage of low-income households as any community where the percentage of the people under the 200% poverty level exceeds the state average. (see attached table C17002)

6.1 Project Detail Entry

Project 1

Qualified Entity or Sub-Recipient Name
Coos County Area Transportation District

Project Name
Commingled Fixed Route

Project Description
Consistent with the Coordinated Public Transit-Human Services Transportation Plan, Coos County Area Transportation District (CCATD) operates a commingled fixed-route and paratransit service where services are provision on a fixed route basis and commingled on the same vehicle as ADA complementary paratransit. Deviations of up to ¼-mile from the fixed-route are available only to people who are eligible for paratransit service. CCATD complies with ADA requirements with respect to such services. The five commingled routes are the Red Line - Coos Bay, Green Line - North Bend, Blue Line - Charleston, Gold Line - Eastside and Myrtle Point - Coquille. The change to commingled services will allow some of the demand to be served by deviating the fixed-route while continuing to serve some of the paratransit with up to two demand response vehicles. This model will help CCATD sustain services into the future.

Is this project intended for services benefiting seniors and individuals with disabilities (formerly STF)?

Maintain Service
80%

If project is maintaining an existing service, describe rationale.
According to the Coordinated Public Transit-Human Services Transportation Plan, Project 1 Commingled Fixed-Route is specifically called out as a short-term goal. It is important to offer a consistent quality customer experience that is sustainable over time to increase customer satisfaction, build trust and boost loyalty.

Coos County Area Transportation District

Project Name
Intercity

Project Description
CCATD Advisory Committee and Board of Directors identified intercity connectors between Powers, Coquille/Myrtle Point, Florence and Roseburg as core services that support accessible, sustainable, livable, healthy and prosperous communities.

Is this project intended for services benefiting seniors and individuals with disabilities (formerly STF)?
Yes

Do you plan to expend funding in a future STIF Plan period?
No

Improve or Expand Service	Maintain Service
10%	90%

If project is maintaining an existing service, describe rationale.
According to the Transit Master Plan, stakeholders felt increased service and frequency of intercity connectors were a high priority. Project 3 Intercity services are specifically called out as a short-term goal in the TMP. It is important to offer a consistent quality customer experience that is sustainable over time

to increase customer satisfaction, build trust and boost loyalty.

Please explain why your allocation of STIF Funds to support student transportation is less than 1%.

First, the \$29,464 is 1.1% of all the operational projects. Coos County has a population of 5.2% between the ages of 15-19 compared to 6% statewide or 86% of the statewide comparator and is within .86% of the overall STIF budget.

Effective Date

This STIF Plan shall become effective as of the date it is approved by the Oregon Transportation Commission and it shall terminate as of the end date specified in Section 5 of the approved STIF Plan.

Signature

This STIF Plan serves as a legally binding agreement between the Qualified Entity and the State of Oregon, acting by and through its Department of Transportation.
